

INFORMATIVE CIRCULAR Ref. DC2024OC039

DATE Milan, 02-08-2024

To all accredited Certification Bodies for MS Scheme

To all assessors/experts of ACCREDIA DC

SUBJECT **Certification and Inspection Department**
Informative circular DC N° 31/2024 - Uploading to the
Accredia database - Management Systems

Dear Sirs

for the reasons already reported in the circular DC2023OC046 of 05.29.2023, since last 30 July 2024, the new single EXTENDED path has been released by Anthesi (technological partner of Accredia) for the uploading of certificates issued to companies for Management Systems.

This path differs from the Standard one in the following points:

- progressive loading, punctual modification of certificates;
- path structure inherited from the old EXTENDED1 path but with less stringent controls;
- new "Revocation date" field that replaces the revocation process via WEB, which has been removed;
- new 'suspended' field.

Warning: it will be necessary to download the new ODS template proposed by the system (at each upload) for the presence of the new fields in the new path.

Anthesi will automatically remove all certificates uploaded with the old STANDARD layout ONLY when the CB confirms the deletion (via email: siac@anthesi.it) and has completed the publication, with the new layout, of ALL certificates (formerly standard).

If you need assistance, please contact siac@anthesi.it directly.

We apologize for any inconvenience that may arise from this change, also considering the approaching holiday period.

Any delays in uploading data for the Management Systems for the month of August will therefore be considered acceptable and physiological.

We take this opportunity to wish everyone a happy holiday.

Dott. Emanuele Riva

Director Department
Certification and Inspection
